

Environmental Policy

We at Continental Product Engineering Ltd are aware of our responsibilities to minimise the environmental impact of our products and of our day-to-day activities. We seek to minimise any impacts through good management, aiming for continuous improvement in our environmental performance.

To the greatest possible extent, the company encourages a 'REDUCE, REUSE & RECYCLE' business culture within the workplace

The purpose of this policy is to ensure we continually consider the environmental implications when improving our working practices and to also ensure they comply with any legislation relating to the environment.

Recognising our responsibilities and commitment to the environment, the Company undertakes to:

- Minimise the waste produced in all parts of our business
- Minimise the volume of waste deposited by re-using and recycling materials where possible
- Seek to conserve natural resources by ensuring responsible use of energy, water and materials
- Set objectives and targets to continually improve our environmental performance and monitor our progress through measurement, inspection, audit and review
- Review and where possible, improve our performance each year with positive action on any areas of non-compliance
- Ensure all employees are aware of this policy, suitably trained to meet their environmental responsibilities and involved in the achievement of our environmental objectives
- Consider the effects that our operations may have on the local community
- Seek to work in partnership with the community by behaving in considerate and socially responsible manner.

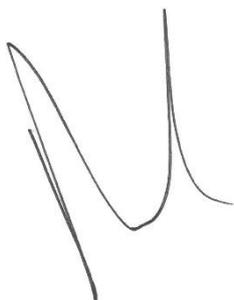

All Employees and suppliers are expected to :-

- co-operate and assist in the implementation of this Policy, whilst ensuring that their own works, so far as is reasonably practicable, are carried out without risk to themselves, others or the environment.

Review

This Policy and the arrangements for its implementation are reviewed :-

- following the introduction of new products or activities, new materials and when environmental legislation relevant to the company is introduced or amended.
- at least annually by Management and amended or added to as appropriate.
